From the Desk of RI President

Greetings, my dear changemakers.

I am sure you are having an enriching experience as you *Serve to Change Lives*. One of the ways you can make the greatest change in a person's life is to help them learn to read. Literacy opens up the world to us. It makes us better informed about life in our own communities and opens vistas to other cultures. Reading and writing connects people and gives us another way to express our love for one another. September is Basic Education and Literacy Month in Rotary. Enhancing literacy skills is critical in our pursuit of reducing poverty, improving health and promoting peace. In fact, if all students in low-income countries left school with basic reading skills, it would result in a significant cut in global poverty rates. Without education, illiterate children become illiterate adults.

Today, 14 per cent of the world's adult population — 762 million people - lack basic reading and writing skills. Two-thirds of that group are women. Literacy and numeracy skills are essential to obtain better housing, healthcare and jobs over a lifetime.

Especially for girls and women, literacy can be a life-or-death issue. If all girls completed their primary education, there would be far fewer maternal deaths. And a child is more likely to survive past age 5 if he or she is born to a mother who can read. Improving outcomes for more people worldwide is possible only if countries remove barriers to education for girls. The economic argument for doing so is clear: In some countries where schooling is geared toward boys, the cost of missed economic opportunity is more than \$1 billion per year.

Empowering people through education is among the boldest goals we have as Rotarians. We don't have to travel far from our homes to encounter those whose lives are being curtailed because they struggle with reading, rely on others to read for them, or cannot write anything more than their own name. Starting this month, consider how your club can *Serve to Change Lives* through literacy: Support local organisations that offer free programmes to support adult literacy or local language learning, or that provide teachers with professional development centred around reading and writing

Become literacy mentors or work with an organization like the Global Partnership for Education to increase learning opportunities for children around the world. Have conversations with local schools and libraries to see how your club can support their existing programmes or help create needed ones in your community. In India, the TEACH programme, a successful collaboration between President Speaks the country's Rotary clubs and its government, has demonstrated how to scale up literacy efforts to reach millions of children. And at a time when schools across India were closed due to the Covid-19 pandemic, the programme's e-learning component reached more than 100 million children through national television. Literacy is the first step out of poverty. As Nobel laureate Malala Yousafzai has noted, "One child, one teacher, one book, and one pen can change the world."

Shekhar Mehta

President, Rotary International

From the Desk of District Governor

Rtn. Fazal Mahmood – District Governor

Dear Changemaker President,

Hearty Congratulations to you and your team of Club officers on assuming office to 'Serve to change Lives'. Sabiha joins me to wish you and all your members a glorious Rotary year 2021-22. All of us, I am sure, are delighted to be on the anvil of yet another Rotary Year of service to humanity together with strengthened fellowship & friendship. Each & every one of you is a Changemaker - and this is your platform.

Remember always what R I President Rtn. Shekar Mehta emphasizes; "it is not the magnitude of what we do that matters, it is the attitude with which we serve that matters". It is with this commitment that Rotary International has served humanity for the last 116 years & has thus far impacted millions of lives globally. At the stroke of 12 midnight of 30th June this year again, marks the onset of new Rotary Year in RI District 3190. There will be change of guard both at the Club and the District level. With that comes the newer vision, aspiration and renewed focus on various projects and programmes that will be rolled out to address the needs of the community and thus serve the cause of Rotary.

I am sure you have all your Club plans & programmes firmed up to ensure another meaningful & a purposeful Rotary year. In this process, please engage all your members, their respective spouses and in fact, their entire family to partake in the activities of the Club throughout the year to augment fellowship among the families. Empower your team & every member to embark on projects & programmes that will make a difference to the society as we Expand our Reach, increase our Impact,

Enhance Participation Engagement and Increase our Ability to Adapt. After A lot of deliberation our District team has come up with various plans & goals, we seek to achieve this year.

'HOSA BELAKU' - is a special project so dear to me. Under Hosa Belaku my dream is to implement projects encompassing all the 7 focus areas of Rotary with special emphasis on girl empowerment to help the underprivileged belonging to the rundown neighborhood in Namma Bengaluru. Let us join hands & work together in our goal to change lives of these underprivileged neighbours in next 365 days, qualitatively.

Each & every day of this year should be a day we dedicate to be the Changemakers in the lives of our fellow human beings. Once this year is through, we should be able to look back with pride & say "Yes, I am indeed a Changemaker Rotarian, and I made this dream come true.

"SAHAYOGA' is yet another programme that encourages your Rotary Club to partner with another Bangalore based Rotary Club to tie up with an outside Bangalore based Rotary Club to extend your helping hand to serve the local community. This I am sure yields enormous Rotary dividend to everybody's satisfaction.

Dear Changemaker, collaborate with your partners in service, NGO's, CSR partners to increase the bandwidth of your offering to serve the community. As Changemaker our priority in the Rotary year 2021-22 is to Serve to Change Lives by Engaging with our fellow Rotarians, their families, communities we serve, the stake holder we work with and see to that we Empower all of them and then work in Collaboration to Celebrate Rotary. Wishing you & all your members once again, a wonderful Rotary Year to "Serve to Change Lives"

Yours in Rotary Service,

**Rtn. Fazal Mahmood & First Lady Rtn. Sabiha
Fazal**

District Governor 2021-22
Rotary International District 3190.

From the Desk of President

Rtn. N Murali - President
Rotary Attibele Sarjapura Club -2021-22

Dear Fellow Rotarians

Greetings to all my fellow Rotarians of my club and all the Rotarians in RI , We have been successful in completing together 3 months of the current Rotary year with several flagship service projects serving our community around. It gives me great pleasure & satisfaction of our actions till date. At the same time, I know that you will agree with me that what we did till yesterday has gone into history & hence we need to plan to execute the projects that we have slated together for the annual plans dovetailing to the goals that we have committed to the RI & District

As we are trying to set tread on our journey for the current Rotary year, I realize that we have completed the first quarter of this year, while we have been successful in executing many of the projects as mandated by the District charter, we have also contributed significantly to the community in the society at large, as 25% of our current year has passed by we need to now change our pace of movement from treading to trotting & soon we have to gallop so that we can strive to complete the planned targets well within the timelines, We are fortunate to charter the programmes as per the monthly significance themes , for instance September month has been dedicate for education in view of the Birthday of Dr S Radhakrishnan remembering the education and teachers fraternity . It is significant that we needs to put on records that about 12 % of our club members are from the teaching profession & hence it becomes imperative for us to identify, recognize and reward the teachers who have excelled in their profession which leads to the nation building for sure.

Our club was fortunate during this month as out of the 155 clubs of RI District 3190, we were chosen to host a reception to the brave CRPF cyclists during the first week of September. The rally started from Kanyakumari in Tamil Nādu with a target to reach Rajghat in New Delhi , on their day 7 they reached Hosur the border town of Tamil Nādu with Karnataka. Rotary Attibele Sarjapura on a request from the district secretariat did receive the cyclist in a grand manner in a way to encourage , motivate the entire team for their herculean task in the national interest spreading the message of 75th Indian Independence day to the entire stretch of the country

Secondly, we had the presence of our District Governor Rtn Fazal Mahmood to our club not for the usual reason of Governor's official visit but for a different reason of inaugurating 7 signature Programmes in a single day. The various inaugurations was sequenced as follows

1. Mushroom Cultivation farm facility construction which shall facilitate more than 10 deserving women for their livelihood thru the Self-help group (SHG)
2. Mega Rotary Public image signage at the most bustling junction and the inter state border area . This piece of monument is installed at the strategic location which can't miss eyes of people traveling to & fro at this location in all modes of transportation.
3. Launch of the Newsletter of the club of the September month release
4. Launch of the official website of the club for the first time
5. Formal Induction of the new members of the club
6. Awarded the Vocational Excellence award to the most deserving young entrepreneur
7. Addressing General Assembly which included 2 clubs & the district officers which includes the district secretary , Assistant Governor, Lieutenant governor

Taking the trend forward in the theme of the education as the focus area we also was successful in creating knowledge sharing awareness on the most important topic of the present world the climate change and hence the need for shifting to Renewable Energy practices from the current non – renewable source of energy which the world is currently busy consuming with, Also our lady Rotarians do not miss an opportunity to bring awareness in the Adolescent Girl students on the menstrual hygiene and awareness among the young girls which has been a myth in most of the young girls mind since it is not spoken at home or at the schools in the present education system in our county, this programme has been well accept by the target audience and the message reached loud & clear

Yours in Service above self

Rtn. N Murali
President 2021-22
Rotary Attibele Sarjapura Club -2021-22

From the Desk of Chartered President

Rtn. Venkata Swamy Reddy
Chartered President - Rotary Attibele Sarjapura

Dear Rotarians

It gives me immense pleasure in sharing my thought of my Club, its origination and the journey of the club for the past 6th year. Our club is very fortunate that all the subsequent presidents after I have taken this club to different direction since inception many successes has been envisaged in all the key focus areas of the Rotary

I am also honored to write this article for the first time in our 6 years of the journey as this is happening in the presidentship of the current president Rtn N Murali, as a changemaker president we have seen many first of its kind breakthrough improvisation in his presidentship, some of the significant improvements which needs special mentioning are the following The membership strength was doubled, Monthly newsletter being introduced, dedicated website for the club and trust has been launched within 3 months of existence, communication & meeting proceedings system, process and quality has increased multifold. We can see visible volunteering by many members who where otherwise dormant , over all we are convinced that the club activities and the proceedings are happening in the expected norms and the clubs' visibility at the district level is substantial and visible which is a welcome and positive, I have got fresh levels of encouragement and enthusiasm for my contribution in & out of Rotary

As a Chartered President I have successfully led the club during my period and also handhold the subsequent presidents with all the necessary support , Also by profession since in a in the education segment we have recognize more than 25 teachers for the Nation Builders Award till date & this year we have identified six teachers for the Nation Builders Award ,who were identified as most talented and service-oriented teachers of our locality from various school. We at Attibele Sarjapura Club are very fortunate that many of our members are from teachers' profession, we also have responsibility and accountability in recognising their contribution to the society not only in education sector but also in many other walks of our life In that context. We are responsible to visualize, recognize, and appreciate the excellent contribution by all the teachers ,

I would also like to share few of my contribution to the education segment especially the Minority community . This is my 24th year in service to the education sector in my life and continuing the teacher's profession most passionately and happily and we have been facing several challenges in these years , but it is to be mentioned that the past 2 years have been very challenging, and it has taught us many new lessons which we did not know .

I have strived passionately in bringing the children of the minority community to the main stream education in par with the other community, some of the significant education system I implemented apart form the regular curriculum are over all personality development of the child, hygiene development, mind , soul and health development to the students through Yoga Sana, patriotism , public speaking, Art & craft, conducted education tours to show the outside world's latest development, introduced latest digital media learning and teaching techniques are the few to share

Inter District Reception Programme

KANYAKUMARI TO RAJGHAT CYCLE RALLY BY TEAM CRPF

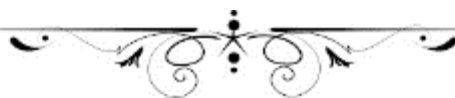

Our club was fortunate during this month as out of the 155 clubs of RI District 3190, we were chosen to host a reception to the brave CRPF cyclists during the first week of September. The rally started from Kanyakumari in Tamil Nādu with a target to reach Rajghat in New Delhi, on their day 7 they reached Hosur the border town of Tamil Nādu with Karnataka

Rotary Attibele Sarjapura on a request from the district secretariat did receive the cyclist in a grand manner in a way to encourage, motivate the entire team for their herculean task in the national interest spreading the message of 75th Indian Independence day to the entire stretch of the country, The reception was conducted with the close co ordination with the CRPF teams of both states at the state border Attibele, The participants were welcomed with floral pleasantries followed with light refreshment and finally concluded with a brief press briefing by the Rally head, CRPF chief & the President of Rotary Attibele Sarjapura club

Inter District Reception Programme

Gramalakshmi project meeting at IIHR

Host Club Rotary Attibele Sarjapura President Rtn N Murali, Past president Rtn HC Srinath the President and Secretary of the SGH had a kickoff meeting with the Head of Agricultural engineering and the senior scientist of the Mushroom Research lab at the Indian institute of Horticultural Research at Hessargajatta, Bangalore for the hands-on information prior to the commencement of the farm.

Wide range of business models were presented by the IIHR officers in order to help facilitate, the Short term, Medium term & Long-term business strategies. Towards the end of the meeting the team was taken around the laboratory facility to visualize the complete process of the mushroom cultivation right from straw preparation, sterilization, ready to grow bag techniques, harvesting techniques of the mushroom. The team SHG & the host club gathered lots of information related to the mushroom cultivation. Important journals were also purchased by the team for immediate reference purpose during the process of growing the mushroom in large scale mode

Gramalakshmi project meeting at IIHR

Sterilization of Ready to use bags with all the technologies which include electrical and conventional firewood heating mode system

Rotary has been working to eradicate polio for more than 35 years. Our goal of ridding the world of this disease is closer than ever. As a founding partner of the [Global Polio Eradication Initiative](#), we've reduced polio cases by 99.9 percent since our first project to vaccinate children in the Philippines in 1979.

Rotary members have contributed more than \$2.1 billion and countless volunteer hours to protect nearly 3 billion children in 122 countries from this paralyzing disease. Rotary's advocacy efforts have played a role in decisions by governments to contribute more than \$10 billion to the effort. Today, polio remains endemic only in Afghanistan and Pakistan. But it's crucial to continue working to keep other countries polio-free. If all eradication efforts stopped today, within 10 years, polio could paralyze as many as 200,000 children each year.

In a similar effort Rotary has been working tirelessly in the current prevailing pandemic of Covid -19 globally and been contributing significantly in containing, prevention and vaccination activity in close co ordination with various bodies which incudes Government of India programmes, local Government Health departments in speeding up the efforts of the day . The local health department and the municipal commissioner has appreciated our efforts of creating public awareness through the dual size mega signage

Vocational Excellence Award by DG

Vocational Excellence Award was conferred to Ms. Nivedha RM – CEO – TrashCon for the excellence in Revolutionary Technology enabled solution for solid waste segregation and recycling of Biodegradable & Non – Bio degradable waste

Awareness session on Solid waste management

Excerpts of the Talk from the external Speaker : Imagine a plastic cover with food inside, metals, tin, glass, cardboard, diapers, blood, flesh and anything under the sun – All put together? How can you make any value out of it. Thus, this waste gets dumped in the landfills, and as most of the developing countries do not have any more land left, It is burnt right outside the houses. This is the root cause of the plaguing Waste Menace. We segregate it into biodegradable and non-biodegradable components automatically with our state-of-art patented technology - TrashBot. Further, the Bio-degradable is converted to compost, Bio-gas and the Non-Biodegradable waste is recycled thus providing a complete end-to-end integrated solution. This enables Zero Waste to Landfills and ensuring Circular Economy

General Assembly meeting with District Governor
